13 March 2002

Dear Councillor Womphrey

PRIORITISATION OF RESURFACING OF CONCRETE TRUNK ROADS WITH QUIETER MATERIALS

Thank you for your letter dated 4 March to Mrs Chipping, who has asked me to reply.

I can confirm that the concrete section of the A19 Billingham Bypass will be resurfaced with quieter materials as part of the ten year resurfacing programme. As you know the current programme is due to be completed by 31 March 2011.

I am sending a copy of this letter to Karen Sanderson, who is the Route Manager for the A19. If you require further information concerning the A19 you might like to contact Karen at the Highways Agency, Room 7(E), City House, New Station Street, Leeds, LS1 4UR.

Yours sincerely

John Byrne
